## Job Summary

Job Title: Software Engineer (m/f)

Work Location: Varaždin

Application Deadline: 19.11.2019.

## Company Information

Name: KOGITAS D.O.O.

Address: Ivana Cankara 3, 42000 Varaždin

Web: <https://kogitas.com>

## About Us

Kogitas is an Oracle Gold Partner that uses Oracle software and mobile technology to help organisations to transform their business to achieve a competitive advantage. The company's European Development Center (EDC) is based in Varaždin and provides services to customers that are mainly located in the UK. The core focus of the company is the provision of Oracle E-Business (EBS) development services which primarily involves developing extensions in SQL, PL/SQL, Java and XML. However, we have started the process of transforming the company to be able to deliver both digital transformation services. As such, we also develop enterprise mobile applications and cloud-based solutions for mid-size businesses.

## Job Description

We are currently recruiting to hire a graduate to intermediate Software Engineer (m/f) in order to join an establish team. The software engineer will be involved in developing, maintaining, documenting and testing data driven applications using a mixture of technologies.
